August 29, 2017

The Honorable John Kasich
Governor, State of Ohio
77 South High Street, 30th Floor
Columbus, Ohio 43215

Dear Governor Kasich:

On behalf of the Ohio State Dental Board, we are pleased to submit a biennial-format Annual Report that encompasses two fiscal years covering the period July 1, 2015 through June 30, 2017.

During this time period, the Dental Board submitted a biennium budget request for fiscal years 2018 and 2019. In order to have a structurally balanced budget for the biennium, the Board took cost austerity measures by reducing discretionary expenditures and leveraged efficiency and effectiveness. Also, the Dental Board worked closely with stakeholders on the budget. This was to build consensus on an appropriate recalibration of revenues to help address the approximately 36% increase in inflation over the preceding 16 years and the related increase in cost of doing business. To this end, the Ohio Dental Association (ODA) and the Ohio Dental Hygienists Association (ODHA) graciously provided letters of support.

Aggressively combating the opioid epidemic has been a key priority for the Dental Board. An all-hands-on-deck charge with a holistic approach has been deployed. The Board has been actively participating in the Governor's Cabinet Opiate Action Team (GCOAT) and has formed its own Opiate Strategy Team to provide laser sharp focus on the response to this epidemic. Furthermore, the Board partnered with other healthcare regulatory licensing boards and the Ohio Dental Association to develop educational tools, guidelines and rules for the prescribing community.

Also, the Dental Board has been closely monitoring reports generated through the Ohio Automated Rx Reporting System (OARRS) that flag potentially non-compliant dentists. Appropriate action has been taken where needed and dentist prescribers have responded in an increasingly compliant manner with the prescribing protocol for opioids. In this regard, the Board is continuing to work closely with stakeholders on potentially implementing deterrence strategies that could act as early intervention options such as monetary fines as deemed appropriate.

The Dental Board has been conducting due diligence regarding a critical national issue whereby state dental boards are potentially facing a legal challenge to recognize dental specialties over and beyond those sanctioned by the American Dental Association (ADA). Therefore, the Board is faced with making a critical decision on potential modifications to its statute and rules. These modifications would possibly recognize specialties not sanctioned by ADA or the Board could face litigation.

As we continue on this journey to protect consumers, we will embrace the best of yesterday and meld it with the best of today to create the best of tomorrow.

Respectfully,

Constance Clark, RDH
Board President

Harry Kamdar, MBA
Executive Director

BOARD OVERVIEW

The Board is comprised of 13 members: nine dentists (two of which are designated as specialists), three dental hygienists and one public member. All of the Board members are appointed by the Governor and serve four year terms. Two board members are selected by their peers to serve as the Secretary and Vice Secretary and oversee the Board's Supervisory Investigative Panel.

The Board meets at least eight times per year. Meeting agendas and minutes are available on the Board's website.

COMMITTEES

The Board addresses a variety of policy issues through its standing committees. Committees formulate reports and recommendations to take to the full Board for approval. Committee meetings typically are held on the same day as the Board meetings. Board actions on committee recommendations are included in the Board meeting minutes. Additionally, each committee is assigned to champion one or more key priorities from the Board's strategic plan.

EDUCATION COMMITTEE

The Education Committee is a committee comprised of six (6) Board members, one of whom is appointed by the Board President as the chairperson. The Education Committee meets immediately prior to regularly scheduled Board meetings. Primary directives of the Education Committee are to review and make recommendations to the Board regarding continuing education providers, specific educational courses that lead to Board-issued certificates or permitted duties of dental auxiliary, and continuing education audits of minimum requirements for licensure renewal. Recommendations from the Education Committee are forwarded to the full Board for further consideration, review and approval.

LAW AND RULES REVIEW COMMITTEE

The Law and Rules Review Committee is comprised of eight (8) members: Six (6) are current Board members, one (1) representative from the Ohio Dental Association and one (1) representative from the Ohio Dental Hygienists' Association. Also, other regular attendees include the Board's Assistant Attorney General, Executive Director and Deputy Director. The primary purpose of the Law and Rules Review Committee is the five-year review of the administrative rules governing the licensing and regulation of the profession of dentistry and to make changes as deemed necessary by the Board, subject to legislative approval. The Law and Rules Review Committee submits recommendations regarding rule revisions to the full Board for review, consideration, and approval for filing with the Common Sense Initiative and the Joint Committee on Agency Rule Review.

POLICY COMMITTEE

The Policy Committee is comprised of four (4) Board members including a chairperson appointed by the Board President. The committee considers, drafts, and develops policies which clarify the law and rules governing the practice of dentistry, dental hygiene and dental assisting which allow the Board to operate more effectively and efficiently. The Policy Committee makes recommendations to the full Board on policies for review, consideration, and approval.

SCOPE OF PRACTICE COMMITTEE

The Scope of Practice Committee is comprised of four (4) Board members including a chairperson appointed by the Board President. It considers inquiries and develops position statements which clarify the scope of practice for the profession since the field of dentistry is constantly evolving and changing with emerging technologies that offer better solutions to oral health problems. The committee makes recommendations to the full Board with the health, safety and welfare of Ohio's dental consumers as its principal motivation.

OPERATIONS COMMITTEE

The Operations Committee is comprised of three (3) Board members including a chairperson appointed by the Board President. This committee meets on an as-needed basis. The primary focus of the Operations Committee is to review the requirements, responsibilities, processes and procedures for the establishment, operation and management of Board protocols. The Operations Committee reports to the full Board for review, consideration and approval.

AD HOC COMMITTEE

The Ad Hoc Committee is comprised of three (3) Board members including a chairperson appointed by the Board President. The focus of the committee is to review and approve expert witnesses, create disciplinary guidelines and other tasks as assigned by the Board. The Ad Hoc Committee reports to the full Board for review, consideration and approval.

STATEMENT OF REVENUE AND EXPENSES

In odd years, less revenue is collected resulting in a deficit. However, this deficit is offset by a surplus in even years when more revenue is collected. This anomaly is due to the revenue pattern of lower cost license renewals (e.g. EFDAs & Radiographers) occurring in odd years and higher cost license renewals (e.g. Dentists & Dental Hygienists) occurring in even years.
