Continuing Education for Radiographer's Certificate Renewal

You are required to obtain two (2) hours of continuing education specifically in dental radiography from a Board-approved or Board-accepted sponsor. If you are searching for coursework that meets this requirement, the Board only approves sponsors, not individual courses, and therefore does not maintain a database of specific approved courses. The Board will accept any radiography courses taken through the American Dental Association Continuing Education Recognition Provider (CERP) or any Academy of General Dentistry Program Approval for Continuing Education (PACE) provider. The ADA and The AGD have searchable databases on their websites where you may locate a radiography course under "Continuing Education". Their websites are: www.ADA.org or www.AGD.org
